About Southwest Community Leadership Program

In 1997, The Grove City Area Chamber of Commerce developed the concept of a leadership program for the Southwest Community that would help identify and equip emerging leaders for service roles in the community.
Hundreds of individuals have completed this program, where they acquired the skills and knowledge to serve as strong community leaders. Lasting relationships have also been forged and serve as building blocks for our community.

Community Project & Impact

In our leadership program, participants collaborate to plan and execute community service projects that address specific local needs. This hands-on experience enhances their communication, collaboration, and team-building skills, preparing them for future leadership roles. By working together toward a common goal, they not only make a meaningful impact but also strengthen their connections within the community.
